

# Problem Statement:

There are so many avenues to start learning how to cook, but the many choices can make it daunting to figure out where to start.

## Details:

When you haven't been taught how to cook by a family member or friend it can be difficult to know where to start. There are so many different options, and it can be tiring to go through each one individually to figure out which one works best for you. Different people learn best through different ways, so one method might work great for one person, but be awful for the next.
